## BASKETBALL

### Twin Towns 14; Berlin 0

After dropping four games in a row, Twin Towns suddenly recovered and applied a coat of old fashioned whitewash to Berlin at the fair grounds on July 31. The Norway outfit drove two pitchers from the mound and made the third relief's position uncomfortable. During the game, and kept the spectators on edge, wondering what next was on the program. John Whalen, the new Twin Town manager, was at the helm, and the team responded in real form.  
Every player on the team captured at least one safe clout with Robinson leading with four singles out of five times up. Jackson and Whalen landed four double sacks, Dillon and Hayes walloped for the third bag. Carl Emery, the well known player from West Paris, worked in the Twin Town lineup and came across with two long hits. "Chick" Hayes hurled a steady game with only seven scattered hits on his delivery. He registered five assists and struck out five batters.  
For Berlin, Culver was the only player making more than one safe bingle. Curtis secured the only extra base walk. It was an unfortunate day for the Mountaineers pitching staff. Fogg started for Berlin and lasted four innings, with seven hits and ten runs against him. Burns struggled through two sessions and escaped with five hits and one run on his delivery. Dube endeavored to match his skill against the Twin sluggers but went way of his predecessors during the seventh and eighth innings. Five hits and three runs was his reward.  
Jimmy Robinson twice stole home, the first time this season. Stunt has been pulled off in the Inter-State League.  
Catcher "Bill" Kneeland played in good form, making two runs on one bingle, and being sent on the course when spotted by pitcher Burns. He made ten put-outs.

### ATHLETICS 3; Twin Towns 2

One of the tightest ball games staged in Lewiston in the Inter-State schedule was put on Saturday afternoon when the Twins all but got away with a grand climax in the ninth inning. The Norway bunch lost the game on the merest twist of fate. With the bases full and nobody out and one run needed for a tie, by changing pitchers the Athletics snubbed the rally and retired the side with a zero. It was a bit of hard luck for a large group of fans from Norway and South Paris, but the game was worth the admission price. The Twins put up a snappy argument under the new manager and held on grimly until the end.  
"Lefty" Back, the Twin Towns south paw, hurled a splendid game and held the Athletics to only one hit. Only two errors are recorded against the team behind. Dillon proved to be the hard hitter for the day with a pair of two sacks and a triple to his credit. Merriweather and Gaudette poked the highest mark for the Athletics. Emery, the West Paris boy, just breaking into swift company, found the pill for two safeties and tied Jackson in that race.  
Lewiston registered the biggest Saturday crowd for the season.

Its object is to disseminate principles of fair dealing and practices and the observance of the "Golden Rule" in private, civic, social and business life. Through its weekly luncheon meetings a spirit of co-operation, good fellowship and fraternalism is developed among its members, while the science of business building and community development is part of its program.

## OUT OF THE GLOOM

Many a Gloomy Countenance in Norway  
Now Lightens With Happiness  
A bad back makes you gloomy.  
Can't be happy with continued backache.  
The aches and pains of a bad back are frequently due to weak kidneys.  
Doan's Pills are recommended for weak kidneys. Ask your neighbor.  
So Norway citizens testify.

Mrs. Orville Palmer, Lower Main St., Norway, says: "I was suffering from disordered kidneys. My back was painful and it made me restless at night. I was dizzy and everything seemed to turn around in the room. My kidneys didn't act regularly. Doan's Pills had been used in the family with benefit so I decided to go to Clark's Drug Store and get a supply. After using two boxes, I was all right, so I gladly recommend Doan's."

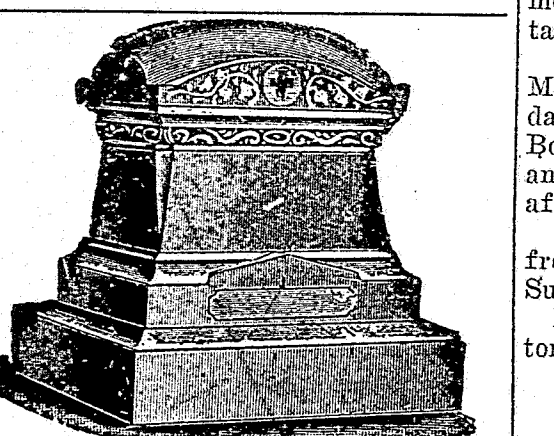

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Palmer had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

**Auto Accident—One Killed**  
Abraham Smith, 26, of Waterville was killed, Miss Blanche Butler, a waitress, of that city, received a broken wrist, and John Russell, also of Waterville, was slightly injured, Sunday, when a big machine in which they were riding and which was driven by Smith, came out of a cross road and struck another car driven by Eino Kokami of Monson, who was accompanied by three companions. None of the occupants of the Kokami car were injured.

The car driven by Smith, which is said to have been going at a pretty good rate of speed, was overturned and badly damaged when it struck the other machine. An automobile following close behind it picked up Smith and started with him for the office of Dr. James P. Blake in this village. He was dead, however, when he arrived there. The injured were taken to the Bridgton Hospital where they were reported to be resting comfortably.  
Smith, when thrown from the car, struck the base of his skull on some object, and death was said by Dr. Irving Mayberry, medical examiner, to be due to concussion of the brain.

The car had been used by Smith as a public car in Waterville for the past year or more.

### Cuts Better Lasts Longer

You will appreciate the John Deere Mower the moment you see it in action. You will notice particularly its simplicity, its great cutting power and the ease with which it is handled. These advantages, combined with the extra years of service it gives, makes the John Deere a mighty profitable money investment.

#### JOHN DEERE MOWER The Mower with the Balanced Gears

The driving gears on the John Deere are balanced—one set offsets the thrust of the other set. This eliminates side wear and strain. This mower transmits maximum power to the high grade carefully-fitted knife—that's why the John Deere does a better job of cutting and pulls lighter.

The flexibility of the cutter bar on the John Deere fits it for use in rough, uneven fields or for wood-cutting on roadsides—this feature you will like.

SIZES: John Deere No. 1 regular frame mower—3-ft., 4-ft. and 5-ft. cut. John Deere No. 2 big frame mower for severing and field conditions—4-ft., 5-ft. and 7-ft. cut.

Another feature—if after years of use, lag develops in the cutter bar, this can be taken out—the bar is aligned by a simple eccentric adjustment. The John Deere handles easily. The bar can be raised high with the foot lever to pass over ordinary obstructions. With

the hand lever an extremely high lift can be secured quickly and easily.

It's no job to keep the John Deere in good running order. All parts are easily replaced; adjustments easily made—its simplicity is a real feature.

Be sure to see this mower before you buy.  
It's the best mower we have ever seen.

#### PERSONAL FISHING NOTES AND FANCIES

Somehow I've been on the wing all summer. Have I occasionally to fish a bit and talk about it. Moosehead Lake has been twice visited and handsomely responded with fish; salmon, trout and togue. They fell for long-tailed flies. Not in car load lots but often enough to keep me interested. There is no use in exploring a "new country" for big fish. Have tried and given it up. Moosehead Lake is the place where big fish are found more often than in any other section of Maine.

I do not mean that there are not other good waters inhabited with large fish. There certainly are many of them but I get better results for the energy and time expended in Moosehead water than at any other place.

Sixty-eight trout and salmon were taken in my two visits there this season. All but two on a fly. It is a mistake to say that only small fish come to a fly.

Several of these I got weighed three pounds or more. To be exact 12 of them. The largest, a salmon, 5 1/2 pounds and three square tails in excess of 4 pounds each. It takes persistence to get fish there and this looks most mysterious to you go. Sometimes, though not often, a school of feeding fish are found and the limit (15 pounds) is immediately taken. Have seen this only three times in sixteen years. Twice at Caribou Point and once at Two Mile Island.

A dozen years back salmon were rarely taken but for the last three seasons they are much in evidence though less so this year than last. Next year it may change and be a salmon year. Who knows?

A trout weighing two pounds was taken from B pond early this season. By actual count 189 shiners were found in its stomach. How much did the trout weigh after these were removed? I give it up. Such a question ought never to be asked. Dr. S. L. Edwards of Brattleboro, Vt., asked it.

At Quimby Pond in the Rangeley region, Walter Smith, the guide, recently shot two bittern commonly called meadow hens. They take special delight in gorging themselves with trout. I have found 29 small trout in the crop of one bird and have heard of as many as seventy being found.

One of those shot this year had in it one trout that weighed 5 ounces and was eight inches long. The other was five inches long. It had just come in to feed. Had it ended its life later in the day it would have been filled with trout.

Small trout are numerous at Quimby Pond as at times are the sized ones. These weighing 3-4 to 1 1/2 pounds each. These fish are the strongest and best fighters according to size of any I've ever hatched to in the trout family.

A pond trout will put up a fierce scrap for many minutes and come to the several times before getting into the net. I've tried it and know. If you doubt it visit Jim Scott at Quimby Pond and try it yourself.

I was there four days of the week ending July 26th and was fed on field strawberries and cream with all the trout I could eat. The fishing was "hot" not up to what it was in June but I took 14 trout one day and Elgin Greenleaf and Walter Smith got 7 one evening that weighed 5 pounds. I did not do as well as that as most of my catch were small ones, 3 or 4 to the pound maybe. I returned to the water. A day's limit is six fish and you must quit fishing at sundown.

Years ago I have fished here on the dark of the moon to mid-night with good results. These trout are night feeders. This was stopped three years ago as it caused the camp owner too much inconvenience to set up so late to collect rent for his boats. Then, too, there isn't much sport in catching fish in the dark.

Price current—Good, mellow and very fragrant Roquefort 70 cents a pound in Norway, 90 in Rumford and \$1.00 in Rangeley.

Whiskey \$16.00 per bottle 5 to the gallon at Moosehead and \$10.00 per bottle in the Rangeley district.

Canadian high wine \$30.00 per 4 quart can.

Bangor "canned tea" \$18.00 per package.

Delivery included at above prices.

## QUESTION

Is a shoe that is fitted to a person's foot more comfortable to wear than a shoe that is not? We say yes. The last pair of shoes that we sent to our customer through the mail have been tried, the report that he renders is most satisfactory in favor of our answer.

His statement is that every part of the shoe touches his foot, from the bottom of the innersole to the extreme end of the toe.

He writes—"I have had more comfort with the shoes you sent me in the short time that I have had them (two weeks) than I have had for the last year with other makes."

A reason why you should profit by the experience of others.

We have a lot of good bargains in shoes for \$1.00 per pair. Straw Hats at 25 per cent. discount.

## Climbed Mt. Washington

Members in the classes of Rev. and Mrs. Olin B. Tracy at the Congregational Church School Climbed Mt. Washington, Friday, passed the night in the Tip Top House and returned to the Glen via Tuckerman's Ravine, thence home in the late afternoon, Saturday.

The party of fourteen left Norway in morning. Leaving the cars at the Glen, they toiled on foot up the road, reaching the summit about 5 P. M. Clouds obscured all but the surrounding peaks and the sunrise view was not a complete success.

The party made themselves at home in the Tip Top House where several other guests were quartered. Snow-balling was a treat for August, and steam heat proved acceptable in a temperature permitting frost to form on the window panes.

Leaving the top at 9 A. M., Saturday, they hit the trail leading past the Cascades and through Tuckerman's Ravine reaching their automobile about 2 o'clock.

Sore muscles have been the reward for the over-zealous, but this inconvenience can be endured in remembrance of the splendid trip.

**WHERE THE TOURISTS' MONEY  
GOES**

We have been telling of the value of  
the tourist business which leaves \$52-  
000.00 in Maine each year. Who gets  
this money?

In the final analysis, we all get the  
money—you and I and everyone else in  
business. Naturally, while the bulk of  
the money as first spent goes to hotels,  
garages, transportation lines and other  
lines of business catering directly to the  
tourist, from them it goes into banks to be  
drawn out to pay the wholesaler who  
handles the goods they sell, he in turn  
pays it out in wages to his employees  
who spend it locally in all lines of trade.  
Our President, Hiram W. Ricker, has  
aptly said "Everyone from the banker  
to the bootblack gets his share."

A recent editorial in the Portland  
Press Herald reads: "Automobile tour-  
ists are flocking to Maine by the thou-  
sands. Anyone can see what it means to  
this State to have these people here. They  
will leave in all parts of Maine a great  
deal of money and it will eventually be  
so distributed that it will be of direct  
help to every farmer, every city dweller,  
and every tax payer."

A prominent Maine banker recently  
said: "If all the tourist travel to Maine  
should be absolutely stopped for one year,  
there would be business failures in every  
community. If it were stopped for  
three years, Maine, as a whole, would be  
out of business. It would be a cala-  
mity."

We must all pull together to hold and  
develop this business.

Because the Canadian tourist business  
amounted to \$365,000.00 last year, the  
Canadian Parliament at its last session  
voted to spend for publicity \$500,000.  
The Maine Publicity Bureau is able to  
spend this year only \$23,000. If it can  
have \$100,000 a year for advertising for  
ten years, it can in that time make the  
tourist business of Maine one hundred  
million dollars annually.

Isn't it worth going after?

**MAINE STATISTICS SHOW LESS  
LIVE STOCK**

During the past two years there has  
been a steady decrease in the number of  
livestock kept on Maine farms, according  
to figures presented by H. M. Tucker,  
chief of the division of animal industry  
in the State Department of Agriculture.

The decrease in the total number of  
cattle kept in Maine for the two years  
report, was 23,491 head. Within this  
total the greatest decrease was in the  
number of cows which was 12,675 head,  
and the second largest percentage of de-  
crease was in two-year old stock, which  
had in two years been reduced by 10,104.

There are now 13,979 fewer sheep on  
Maine farms, and 7,090 fewer horses.  
Cattle have decreased 2,904. No figures  
are available on the number of hogs  
kept, but eliminating this branch of live  
stock, there appear to be 52,064 fewer  
animals on farms in Maine than there  
were two years ago. Maine is so far  
ahead of other eastern states in the free-  
dom from live tuberculosis that there  
is no comparison. From tables compiled  
by the Federal Department of Agricul-  
ture, Maine is at the head of the list and  
is rated as having 1.8 per cent. of the  
disease. Pennsylvania, her nearest fol-  
lower, has 7.4.

A third table showing the percentage  
of farms infected with tuberculosis, is  
also headed by Maine with 5.9 per cent.,  
and lists Pennsylvania second with 11.8  
per cent.

Mr. Tucker's report shows in respect  
to other livestock sanitary work, that  
4, 014 horses were brought into the State  
on permitting for publication: a copy be spread up  
on our records.

# **Heating**

Heat is something we need in this climate and it is time to  
find out if the plant we have is in working order, or if we have  
got to have a new Heating Plant. If you have got to repair your  
plant we are ready to give service at a reasonable price. If a new  
plant, we have one of the Best Hot Air Heating Plants on the  
market, The Rudy Furnace. It has a heavy fire box and burns  
hard or soft coal. As coal is quite a question at the present,  
this Rudy Furnace is quite a factor in heating.

We also install Hot Water and Steam Heating Plants. Let

### **CALLS ATTENTION TO BILL**

To the Editor of the Norway Advertiser  
Norway, Maine.

Dear Sir:

May I call the attention of your many  
readers to a bill which will come before  
the voters of Maine to be ratified or re-  
jected before becoming law? It is  
called a "Child Labor Amendment to  
the Constitution of the United States."

A title which enlists our sympathies un-  
til we learn that the word "Child" is  
not mentioned in the text of the bill.

That it's sponsors class washing dishes,  
making beds, hoeing or weeding in the  
home garden, even hunting eggs, as  
"labor"—therefore forbidden to per-  
sons under eighteen years of age. No  
farmer's son of seventeen may help his  
father on the farm—no farmer's daugh-  
ter of seventeen may help her mother  
with housework—no boy or girl under  
eighteen years of age may work at any-  
thing, anywhere without special permis-  
sion from Congress.

I shall be glad to substantiate this  
statement by extracts from the Congres-  
sional Record printed during debate on  
this bill.

Yours truly,

A. F. Wolfe.

Recently I accompanied a caravan of "outlaws" into the Panjoey region on the Cupsuptic River. There were 9 of them. At roll call they answered as follows:

Sam Penney, both senior and junior, and Captain Bucknam of Mechanic Falls; B. Gilpin Smith and Norman Smith; Bradwin with E. S. Cummings, E. A. Greenleaf, Walter Smith and the writer of Norway.

Two Franklin cars and a Hudson conveyed the party. E. S. Cummings was accompanied by his wife and two children, who at Oquossoc were shipped by train to their camp at Bemis for a few days' outing.

Panjoey's camps are 8 miles from Haynes Landing reached by boat. We sailed on the "Cupsuptic No. 1492" for Pleasant Island and then transferred to smaller boats for the up river trip reaching Panjoey in the middle of the afternoon. Cost of boat ride \$12.75.

The distance from Norway to Haynes Landing is a few tenths less than a hundred miles. This is by the way of Wald connecting with the State road two miles north of Phillips.

Heavy rain of several days had raised the water in the river and made an excuse for a small catch. However plenty of trout were taken but nothing like what we had two years before. The limit is 5 fish of 3 pounds in any one day. No fish less than 8 inches is legal. Hence our party was not overworked.

Mr. Panjoey and wife have something of a layout for camps, including a saw mill and trotting horses. I didn't see the latter but was told they were at the Rangeley track. Fan happened down there one day and took in the races and on returning talked about it.

Jeff and Sim were there. These are men not horses. They work and do chores and are handy at most anything. Jeff was born about the time Jefferson Davis moved out of Richmond and has worn the title of Jeff Davis ever since though his name is Emery and he comes from one of the coast towns. Sim is a brother of the proprietor. Mrs. Panjoey is the real thing in the clearing and the indispensable person.

Two camps have been added to the settlement since my last visit. There are open fires in all of them. One camp has a modern bath and others are to have them. All told, there are eight camps accommodating a couple of ten people and a barn with the same number of stalls.

Store house, ice house, pump, pressure tank and many out-buildings besides the saw mill and wood piles (stove wood) in which is some perfectly straight-grained good whittling cedar. Jeff brought an arm full of it to my camp about as soon as I arrived. I took some of this cedar home for future use.

The land is flat and the river is much crooked and bent. It is 12 miles to the Falls and you are allowed to fish that distance. The stream from the bridge to the dead water is closed. You are, however, allowed to fish the stream from the store houses down as far as you desire. Trout and salmon on their journey up are taken in it. Several were caught by our party though but little time was spent here.

The garden pool, a short distance up river from the camps, was worked and responded better. The weather was extremely hot and the water was falling and trout were coming from the lake and were ready to grab a sunken fly.

During my stay I took 12 of them, the largest weighing 2 1/2 pounds. They were marked as being my property and returned to the water with the hope that they will grow larger and multiply.

The Mechanic Falls Peanews were industrious with fly rod and stories. The senior was more inclined that way than the son. The Smiths of Brunswick were thought of fish in tonnage lots very much as they do of pottery feldspar.

By the way the Smiths have had the assistance of two Norway experts in locating feldspar deposits, gems and precious stones.

E. S. Cummings seemed to be well known in this vicinity. Panjoey said his wife was very anxious about the safety of her chickens while he was here and made him get up every morning and let them out as the chickens were easily caught when running in the yard as when cooped up. This early rising was wearing on him and he'd be relieved when Cummings left. This he did Monday noon, but not until his baggage was examined and chickens counted.

He would try and make his wife believe that the foxes had got them.

It is simply marvellous how successful the Fruit Treatment is in overcoming chronic troubles, like Constipation, Dyspepsia and Rheumatism.

The juices of apples, oranges, figs and prunes—intensified and combined with tonics—are made into small tablets called "Fruit-a-lives", which have proven the marvels of the medical world for many diseases.

For instance, Mr. James A. Sheil, 80 Oakhill Ave., Waterbury, Conn., says: "I recommend 'Fruit-a-lives' to anyone suffering from chronic Constipation. Having suffered for ten years, and receiving little relief from specialists, I at last have been helped by your good tablets."

### EMPIRE GROVE CAMP MEETING

For many years, the Methodists have held a Camp Meeting at Empire Grove, East Poland, Maine. In former days, great crowds gathered here and the services were intensely evangelistic. Times have changed. The crowds do not come to ordinary Camp Meetings nor to the Churches. The character of the services have changed somewhat. The meeting this year is to be August 16 to 24 inclusive. A rich and varied program is being prepared that will be of interest to all classes. The forenoon will be devoted to studies and addresses of an institute character. At 11 o'clock each day will be addresses on the general subject, Conservation of Childhood and Youth, Home Work or Care of Young Children, What the State is doing for the Friendless Child; infectious and contagious diseases; Our Courts, the safe guards of Society; Moral and Religious Work in our penitentiary; The Lord's Plan for Church Finances. These addresses will be given by men and women directly related to these activities.

There will be an hour given to Sunday School interests. Teaching points for primary teachers, The Organization and Administration of the Sunday School. ## CHAUTAUQUA OPENS AND CLOSES WITH GREAT PLAYS

"Three Wise Fools" and "Buddies" Share Honors

IT must have been a rather difficult thing for the Chautauqua experts to select the play for this year's program that would fit in with the ambitious principles of co-ordination and unification which they had set themselves to accomplish, but it seems that they have picked just the right production for opening. They say that they wanted a play that is strong, unmitigated entertainment and capable of holding audiences breathless and baffled to the last line and curtain—and, something more—a play that tells something and leaves a worthwhile impulse. Not a play that moralizes or sermonizes, but a play with a purpose.

So they picked "Three Wise Fools" which is by Austin Strong, the author of "The Seventh Heaven."

The characters—a financier, crabbly, domineering, tied to custom. A slow-moving physician. A cold, judicial, stern judge.

These three being the "Wise Fools" who live together—living in a rut. The rut is the theme of the play, and how these men come out of the rut, the action of the drama. Those who help to clear the rut and, unconsciously, almost ruin their lives, are the nephew of the financier—who is not too anxious to work but is a peach of a hockey player; the lady who the "Three Wise Fools" had loved as youngsters and her child, as well as her husband and a combination of notorious criminals, detectives and house servants.

The scenes of the play are before the upheaval, the arrival of the "child," one month after the "child" arrives, the night of the housebreaking, after it and then after that.

"Three Wise Fools" ran a year at the Criterion in New York, three months in Philadelphia, six months in Chicago, closing with three months in Boston.

Two lines stand out from the play in our mind: "We Three Old Foggies are in a Rut," and

The company of first rate New York players has been produced by Cecil Owen, the noted English actor-producer, whose American successes have been legion. At the present time, in addition to heading the Community Chautauqua's dramatic department, Mr. Owen is general stage director for the Marcus Loew Stock Companies. Mr. Owen is a Londoner educated at Cambridge. He toured Australia as leading man with Kyrle Bellew and Mrs. Brown Potter in repertoire, and supported in this country such stars as Aubrey Bouccault in "Old Heidelberg" and Robert Mantell in Shakespearean repertoire and Jane Cowl in her last three successes. He was associated with Frank Reicher in the production of "Johannes Kreisler" and directed seven companies of "Peg O' My Heart" for the Moroscos. He produced himself as director many Broadway successes, notably "Lady of the Lamp" and "Daddy Dimples" in conjunction with Earl Carroll.

Interesting to Chautauqua audiences is the fact that Mr. Owen produced the original company of "Buddies" for the Selwyns.

By the way, the cast of "Buddies" includes some splendid popular music singers and, in the afternoon, they are presenting what they term "a popular music jamboree." They will sing the choruses of the hits from all the long run musical comedies now on Broadway.

Mr. and Mrs. Peter Vhewu and sons from South Carolina are visiting his parents, Mr. and Mrs. Peter Vhewu. They came with their auto.

Mr. and Mrs. Robert Martin and family, Alice and Rosemond and Richard, who have been visiting his sister, Mrs. Bessie Trebilcock, returned to their home in North Beverly, Wednesday, and took their older son, Robert, back with them; he has been here several weeks.

Mr. and Mrs. George Adkins of Livermore Falls is visiting his sister, Mrs. Nettie Smith, this week.

Fish Street  
Giles-Twitchell

A very quiet wedding took place, July 30, when Guy L. Giles and Melissa Twitchell were united in marriage at Mechanic Falls Camp Ground by Rev. Sweet. The single ring service was used.

Mr. Giles is a prosperous farmer of Skowhegan, a man of sound standing, holding the highest esteem of his townsmen.

Mrs. Giles, who is a prominent teacher of Skowhegan, having taught there two years, holding position as helping teacher, is an Oxford County girl, being born in Oxford, daughter of Mr. and Mrs. Elmer Twitchell. She gained her grade and High School knowledge in Oxford schools, standing high in all her school work, having Salutatory on graduating from Oxford High school. She took the course at Gorham Normal where she was president of her class and vice-president of the Y. W. C. A. Besides the Normal course at Gorham she took the helping following summer she attended Columbia University, New York, obtaining nine being in Norway, where she gained the Psychology of Rural School Curriculum, Methods of Teaching in Rural Schools, continuing the study throughout the year, under Prof. Dunn, putting the theory into practice.

Mrs. Giles has taught in other schools than Skowhegan. Two successful terms being in Norway, where she gained the respect and love of both parents and pupils, who felt their loss deeply when she resigned to take up work elsewhere.

A woman of sterling worth, genial, clean, educated and ever thoughtful of others, Skowhegan may justly feel pleased to have her added to their number.

Loving regards and best of wishes for her happiness follow her from a host of friends as she takes this step in life.
